BizBuy.ae

BUY & SELL BUSINESSES

Sell the business you built. *Quietly.* For what it is worth.

BizBuy.ae is the UAE marketplace where business owners and buyers deal directly. You set the price, you decide what is public, and you see a buyer's name before you share any private data.

Serious buyers

Every offer comes from a buyer who has accepted the Buyer Terms of Service.

Confidential by design

Keep your business name confidential until you approve the buyer: name, location and address each have their own visibility. Your financial documents open in your Deal Room at the level you choose; the rest stay in your Due Diligence, opened only to the buyer whose offer you accept.

Numbers, not prose

Structured figures let buyers compare your business on revenue, profit and price.

All in one platform

Messages, offer, due diligence and the Share Purchase Agreement (SPA), the final contract, all run and are signed here.

Selling on BizBuy.ae, step by step

You choose what to make public. You can pause or remove your listing at any time, with no notice period and no fee.

1. **Get a free valuation**
   Enter last year's figures and see what your business could be worth, in a few minutes. Private to your account, no commitment.
2. **Create your listing**
   A headline, your asking price, last year's revenue and net profit, and your trade licence are all it takes to publish.
3. **Choose what buyers see**
   Set a visibility level for who can see your Deal Room (summary, pictures and financial documents), and choose not to disclose your business name. Add your profit and loss statement (P&L) and balance sheet to the Deal Room, and your lease and contracts to Due Diligence, when you like.
4. **Talk to buyers directly**
   You stay in control. See every buyer's name first, then choose who can contact you.
5. **Accept an offer**
   Buyers make a Non-Binding Offer (NBO) you can accept, counter or decline. Only the buyer you accept opens your Due Diligence (trade licence, lease, owners, bank statements), with proof of funds first if it is required.
6. **Due diligence and signing**
   The buyer reviews your Due Diligence documents, and the SPA is drafted and signed on the platform. Only then is the sale complete.

5%
ONLY IF YOU SELL

Free to list. No upfront fee. Listing, talking to buyers and the valuation are free. BizBuy.ae is a marketplace, not a broker: you deal with buyers directly and decide everything yourself. When the binding sale agreement with a buyer you met on BizBuy.ae is signed, you pay its Introduction Fee: 5% of the sale price plus VAT, with no minimum. Buyers pay nothing. Featured placement is an optional paid extra.

What a buyer sees, and when

BEFORE AN OFFER
Sector, location, headline figures and asking price. Your business name and exact address show only at the level you choose.

AFTER YOU ACCEPT
Your executive summary, photos, financial statements, trade licence and lease open to that one buyer, and only that buyer.

AT ANY TIME
Tighten any visibility setting, mark the listing as not selling, or take it down entirely.
